Access State Farm B2B web page (b2b.statefarm.com) and login with your B2B ID and password.

If you forgot your B2B ID or password you are able to retrieve this by clicking on the links for “Forgot your B2B ID or Password?”

You can also access the Request Supplement Tool without logging in under the Resources section.

Although logging into B2B is not required to submit a supplement, it will minimize the amount of inputs needed to validate your access and provide additional self-service capabilities like reviewing payments and EFT information (depending on your role).

Once logged in there could be two different places to access the Request Supplement Tool on the right hand navigation:

- In the “Welcome” section click the Request Supplement link
- Or in the “Resources” section click the Request Supplement link

You may not have both launch points depending on your role but both launch the same Request Supplement application.

The Request Supplement Tool will launch and requires information from you in order to validate this information in our Claim System. Refer to the information on the initial State Farm® estimate or any updated information that the customer has provided.
If you logged in, we will ask for minimal amount of required information to validate the claim:

**Customer information:**
- Claim Number
- Vehicle Year
- Vehicle Make

**Shop information:**
- Since you logged in we will pull all the shop information associated with your B2B profile
- Validate the email associated with your B2B account is how you want to be contacted. You can edit this if you want to use another email.

Then click **Check Claim.**

If you didn’t log in we will have to ask for your shop contact information in order to know who the supplement request is coming from:

**Customer Information:**
- Claim Number
- Vehicle Year
- Vehicle Make

**Shop Information**
- Shop Name
- Shop Phone Number
- Shop Street Address
- Shop City
- Shop State
- Shop Zip Code
- Shop Contact
- Shop Email

Then click **Check Claim**

If the claim information you input does not match what State Farm® has on file you will receive error messages informing you of the error and to locate the information on the State Farm® estimate and re-enter.
Claim Number Not Found.

Note: Enter the first 9 digits of the claim number that are on the State Farm® estimate. Some estimates will include 11 digits with the last 2 being the vehicle number which are not needed.

Vehicle information (year and make) do not match a vehicle on that claim.

If you receive either of these errors, review the State Farm Estimate then re-enter the information and click Check Claim. If you don’t have the State Farm Estimate, you can contact 800-SF CLAIM to obtain the correct claim information. Do not call the B2B Help desk if you receive this error.

If you are unable to continue, contact the claim team at the number listed in the Owner and Control section of the State Farm Estimate.

If the claim was verified, you will continue by entering:

- **Total amount of the supplement**
  - This is the additional amount you are requesting
  - Example: If original State Farm® estimate was $1,500 and you find $500 worth of additional damage submit $500

- **Please indicate if the supplement request involves damages from:**
  - Hail
  - Flood
  - Other damages (i.e. collision or comp)

- **Comments:**
  - Please include your contact first and last name in the comment box.
  - Provide additional info to the State Farm® appraiser to review the request

Then click Continue.
To expedite the review process additional documentation is needed to support the items you are requesting.

To upload a file, click Choose File to select documentation such as the itemized supplemental estimate, photos, invoices, etc. to support your supplement request.

You can select all the files you want to upload at the same time.

Once files are uploaded you can remove any of the files if you uploaded in error.

Once all documents are listed, Click Submit to complete the request.

You will see a banner indicating the submission was successful.

You can complete another request by clicking New Request.
If you didn’t log in we will provide you with confirmation and information on how to become registered on the business to business portal for simplified use of the application.

You will also receive a confirmation email to the address entered on your request. It will list the information entered on your request and let you know that it was received by State Farm. The email also provides additional information on how to view or sign up for electronic payments.
