

STATE FARM® AUTO CLAIM SUPPLEMENT

Access State Farm B2B web page (b2b.statefarm.com) and **login** with your **B2B ID** and **password**.

If you forgot your B2B ID or password you are able to retrieve this by clicking on the links for “Forgot your B2B ID or Password?”

You can also access the Request Supplement Tool without logging in under the Resources section.

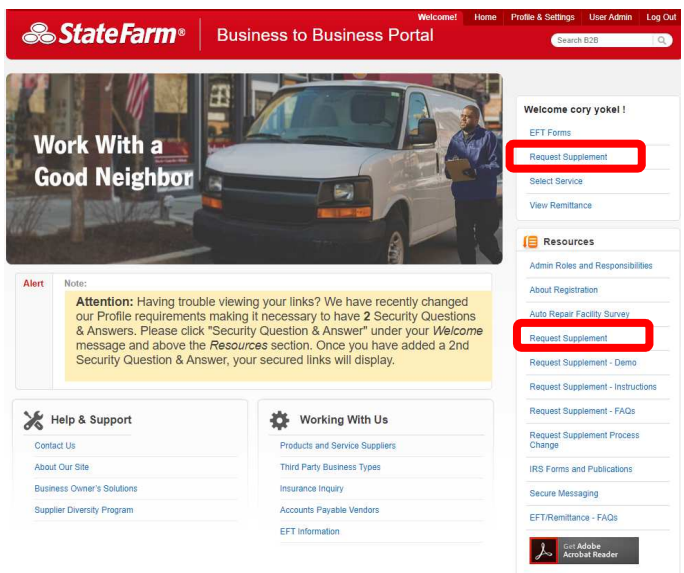

Although logging into B2B is not required to submit a supplement, it will minimize the amount of inputs needed to validate your access and provide additional self-service capabilities like reviewing payments and EFT information (depending on your role).

Once logged in there could be two different places to access the Request Supplement Tool on the right hand navigation:

- In the “Welcome” section click the **Request Supplement** link
- Or in the “Resources” section click the **Request Supplement** link

You may not have both launch points depending on your role but both launch the same Request Supplement application.

The Request Supplement Tool will launch and requires information from you in order to validate this information in our Claim System. Refer to the information on the initial State Farm® estimate or any updated information that the customer has provided.

If you logged in, we will ask for minimal amount of required information to validate the claim:

- **Claim Number**
- **Vehicle Year**
- **Vehicle Make**

Then click **Check Claim**.
