ANALYSIS FOR THIS SAMPLE (Include one form per flooring sample):

Flooring: <input type="checkbox"/> Carpet <input type="checkbox"/> Vinyl <input type="checkbox"/> Laminate <input type="checkbox"/> Wood		SAMPLE REQUIREMENTS: Flooring: 1. Carpets should be 10" x 10"; pads should be 6" x 6" Smaller samples may affect accuracy. 2. Sheet and tile vinyl should be at least 2" x 2. 3. Send the full width and 10" of length for laminate, wood, and vinyl plank samples. If the full width is not available, note it on the form. 4. Three samples from randomly chosen areas of the floor are REQUIRED for vinyl tile asbestos analysis. 5. Clearly indicate how to match each flooring sample to its form. Mark pad / underlayment on the same form as the corresponding sample.						
Pad: <input type="checkbox"/> Carpet Pad <input type="checkbox"/> Wood or Laminate Underlayment <i>Pad analysis is included in price of flooring test. Note pad on same form as the flooring.</i>
